

100% Bio-PET Bottle

Far Eastern New Century is committed to the development and application of green materials. In 2015, we worked with The Coca-Cola Co. and Virent to convert the BioFormPX to 100% Bio-PET resin and 100% biobased PET bottles. The 100% Bio-PET bottles were showcased as part of The Coca-Cola Co.'s pavilion at Expo Milano 2015. We proof that the 100% Bio-PET has the developmental potential of commercialization and scaling.
